Entropic Creation: Religious Contexts of Thermodynamics

Description. Entropic Creation is the first English-language book to consider the cultural and religious responses to the second law of thermodynamics, from around 1860 to 1920. According to the second law of thermodynamics, as formulated by the German physicist Rudolf Clausius, the entropy of any closed system will inevitably increase in time,...

Entropic Creation : Religious Contexts of Thermodynamics

Entropic Creation: Religious Contexts of Thermodynamics and Cosmology. The author considers the cultural and religious responses to the second law of thermodynamics, from around 1860 to 1920. According to this law, the entropy of any closed system will inevitably increase in time, meaning that the system will decay and eventually end in a dead state of equilibrium.
