

forests and floods pdf

The availability and quality of water in many regions of the world are more and more threatened by overuse, misuse and pollution, and it is increasingly recognized that both are strongly influenced by forests. Moreover, climate change is altering forest's role in regulating water flows and ...

Forests and water - Food and Agriculture Organization

In the 1980s the ideas of the Chipko movement spread, often by women talking about them at water places, on village paths, and in markets. Women decided they were not powerless; there were actions they could take and a movement which would support them.
