A productionâ€“possibility frontier (PPF) or production possibility curve (PPC) is a curve which shows various combinations of set of two goods which can be produced with the given resources and technology where the given resources are fully and efficiently utilized per unit time. One good can only be produced by diverting resources from other goods, and so by producing less of them.

Languages are a fundamental aspect of people's lives and the democratic functioning of society. In response to the needs identified in or by its member states, the Council of Europe has been working over the past few decades to compile a set of resources made available to education authorities and professionals and benefiting all Europe's citizens (see milestones).
