These three documents show the progression of the statutory objectives from the new National Curriculum for 2014. Each document organises one of the areas (Reading, Writing and Mathematics) into strands, and then shows the relevant objectives for each year group to help schools to identify the progression of skills and knowledge, and also to organise assessment opportunities through aspects ...

Progression for English and Maths (new curriculum) by

During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.

The area of study known as the history of mathematics is primarily an investigation into the origin of discoveries in mathematics and, to a lesser extent, an investigation into the mathematical methods and notation of the past. Before the modern age and the worldwide spread of knowledge, written examples of new mathematical developments have come to light only in a few locales.
