NANDA nursing diagnosis list is made by NANDA International which stands for North American Nursing Diagnosis Association. This association was founded in 1982 for the purpose of standardising the nursing terminology. The association develops, researches, disseminates and refines the nomenclature, criteria, and taxonomy of nursing diagnoses.

Nursing assessment is the gathering of information about a patient's physiological, psychological, sociological, and spiritual status by a licensed Registered Nurse. Nursing assessment is the first step in the nursing process. A section of the nursing assessment may be delegated to certified nurses aides. Vitals and EKG's may be delegated to certified nurses aides or nursing techs.

The healthcare community is not immune to the deleterious effects of ageism. It permeates the attitudes of medical providers, the mindset of older patients, and the structure of the healthcare system, having a potentially profound influence on the type and amount of care offered, requested, and received.
