future. I came away from this experience with two disturbing convictions. First, it became clear that future shock is no longer a distantly potential danger, but a real sickness from which increasingly large numbers already suffer. This psycho-biological condition can be described in medical and psychiatric terms. It is the disease of change.

Future Shock is a 1970 book by the futurists Alvin and Heidi Toffler, in which the authors define the term "future shock" as a certain psychological state of individuals and entire societies. Their shortest definition for the term is a personal perception of "too much change in too short a period of time".

### **WikiZero - Future Shock**

The book is divided into 6 parts. Part 1 introduces the basic program (death of permanence), Parts 2-4 explain the 3 factors that induce future shock: transience, novelty and diversity and Parts 5-6 bring in future shock and possibly coping strategies.
