

law of attraction directly pdf

The term Law of Attraction first originated in 1906 when author and publisher William Walker Atkinson released his new thought movement book: "Thought Vibration or the Law of Attraction in the Thought World" (Chicago, 1906). He also was brave enough to use the term "vibration" (scary enough word for any other author to use or understand back then).

Newton's law of universal gravitation states that every particle attracts every other particle in the universe with a force which is directly proportional to the product of their masses and inversely proportional to the square of the distance between their centers. This is a general physical law derived from empirical observations by what Isaac Newton called inductive reasoning.
