Orientation Lecture Series: LEARNING TO LEARN Developing

The critical period hypothesis is the subject of a long-standing debate in linguistics and language acquisition over the extent to which the ability to acquire language is biologically linked to age. The hypothesis claims that there is an ideal time window to acquire language in a linguistically rich environment, after which further language acquisition becomes much more difficult and effortful.

In developmental psychology and developmental biology, a critical period is a maturational stage in the lifespan of an organism during which the nervous system is especially sensitive to certain environmental stimuli. If, for some reason, the organism does not receive the appropriate stimulus during this "critical period" to learn a given skill or trait, it may be difficult, ultimately less ...

WHAT IS A CRITICAL THINKING ESSAY? Many college assignments require you to support a thesis. The concept of a critical thinking essay is that you start without an end in mind. You don't necessarily know how you feel about a subject or what you want to say about the subject – you allow the research and your own thinking to determine the outcome.
