Reflection and Refraction of Light Waves Strand Force, ... from one medium to another (e.g., light moving from the air into water). The frequency of the ... scattered. The sky looks blue because our eyes are not very sensitive to violet light, and, therefore, our eyes detect more blue than the violet color. Science Enhanced Scope and ...

### **Reflection and Refraction of Light Waves**

To model blue sky and a red sunset, try shining white light from a torch or a projector into a glass container of water with a few drops of milk in it. You should see a blue haze from the sides. If you look to the far end of the container, you should notice the light has a reddish hue.

### **Reflection of light â€” Science Learning Hub**

The water in the bottle refracts sunlight so that instead of just lighting the area directly beneath it, it will light up a wider space. wealthychef 5 / 5 (4) Sep 17, 2011
