Artificial Intelligence: A Modern Approach

Artificial intelligence (AI), sometimes called machine intelligence, is intelligence demonstrated by machines, in contrast to the natural intelligence displayed by humans and other animals. In computer science AI research is defined as the study of "intelligent agents": any device that perceives its environment and takes actions that maximize its chance of successfully achieving its goals.

Shape of the Australian Curriculum: Mathematics

Instruction tip: Typically, the problem that children have with comprehension is not that they lack knowledge in a general sense—the problem is that the knowledge that they do have is not relevant to what they are

trying to understand. You can either provide background knowledge relevant to activities (e.g., before telling stories about a zoo, the class could take a field trip to the zoo ...
