Reviews. Storage that's low cost, low maintenance, high reliability, and high quality...the keys are right here in your hands. If you run a water system, for a weekend shack or a whole community, you need this book!

Water Storage: Tanks, Cisterns, Ponds & Groundwater

of the water, the duration of the flood, terrain and soil conditions, and the built environment (e.g., buildings, roads, and bridges). -Flooding can cause fatalities and serious injuries for people who are trapped or swept away by wading in, driving through, or boating across floodwaters.

HOW TO PREPARE - Federal Emergency Management Agency

Desalination is a process that takes away mineral components from saline water. More generally, desalination refers to the removal of salts and minerals from a target substance, as in soil desalination, which is an issue for agriculture. Saltwater is desalinated to produce water suitable for human consumption or irrigation. One by-product of desalination is salt.

Desalination - Wikipedia

EPA sets limits on environmental radiation from use of radioactive elements. The Radiation Protection website describes EPA's radiation protection activities, regulations and supporting information.

Low-cost options when water is scarce. Various low-cost options can be made to facilitate hand washing where tap-water and/or soap is not available e.g. pouring water from a hanging jerrycan or gourd with suitable holes and/or using ash if needed in developing countries (see Substance section too).

Hand washing - Wikipedia

Following a disaster if utilities (gas, water, electricity) are damaged it may be necessary to turn them off. Emergency service providers and utility employees will be overwhelmed following the disaster, so it is important to know when and how to shut off your water, electricity and gas if you need to.

A parasite is an organism that lives on or in a host and gets its food from or at the expense of its host. Parasites can cause disease in humans. Some parasitic diseases are easily treated and some are not. The burden of these diseases often rests on communities in the tropics and subtropics, but parasitic infections also affect people in developed countries.

CDC - Parasites

Background: Two decades ago diarrhoea was responsible for around 5 million deaths annually. Through major public health efforts primarily aimed at preventing and treating dehydration this figure has decreased to around 2 million deaths.
