The origins of wine predate written records, and modern archaeology is still uncertain about the details of the first cultivation of wild grapevines. It has been hypothesized that early humans climbed trees to pick berries, liked their sugary flavor, and then began collecting them.

History of wine - Wikipedia

Wine is an alcoholic drink made from fermented grapes. Yeast consumes the sugar in the grapes and converts it to ethanol, carbon dioxide, and heat. Different varieties of grapes and strains of yeasts produce different styles of wine. These variations result from the complex interactions between the biochemical development of the grape, the reactions involved in fermentation, the terroir, and ...
