Intensive Course in Obstetric Emergencies - OGSM

Obstetrics is the field of study concentrated on pregnancy, childbirth, and the postpartum period. As a medical specialty, obstetrics is combined with gynecology under the discipline known as obstetrics and gynecology (OB/GYN) which is a surgical field.

Obstetrics - Wikipedia

A child under 15 dies every 5 seconds - mostly from preventable causes 18 September 2018 • An estimated 6.3 million children under 15 years of age died in 2017, or 1 every 5 seconds, mostly from preventable causes, according to new mortality estimates released by WHO, UNICEF, the United Nations Population Division and the World Bank Group.

WHO | Maternal, newborn, child and adolescent health

Overview. Since the first edition was published in 2000, *Managing Complications in Pregnancy and Childbirth* has been translated into several languages and today is used widely in training for and the provision of emergency obstetric care. The new edition brings the guidance in the manual into line with WHO's current recommendations for emergency obstetric and newborn care.

WHO | Managing complications in pregnancy and childbirth

1. Introduction. Approximately 15% of expected births worldwide will result in life-threatening complications during pregnancy, delivery, or the postpartum period. The concept of emergency obstetric and newborn care (EmONC) was introduced by WHO, UNICEF, and UNFPA in 1997 as an organizing framework for the delivery of evidence-based clinical services, as a critical component of any program to ...

2 of 8 SBCID: 1187608 Copays™ are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service. Coinsurance is your share of the costs of a covered service, calculated as a percent of the allowed amount for the service. For example, if the plan's allowed amount for an overnight hospital stay is \$1,000, your coinsurance payment of 20% would be \$200.

Climate change is one of the greatest challenges facing humanity today. Its effects are already being felt "from strengthened storms and rising sea levels to changing temperature and weather patterns" and they will only grow worse. Urgent action is needed to reduce emissions and to mitigate ...

Climate change | UNFPA - United Nations Population Fund

Umbilical cord prolapse is when, during labor, the umbilical cord comes out of the uterus with or before the presenting part of the baby. The concern with cord prolapse is that pressure on the cord from the baby will compromise blood flow to the baby.. The greatest risk factor is having had more than two previous children with the current baby in an abnormally positioned within the uterus.

Umbilical cord prolapse - Wikipedia

Submission Method A journals make the final published version of all NIH-funded articles available in PubMed Central (PMC) no later than 12 months after publication without author involvement. The start date shown for each journal is the earliest publication date that meets this requirement. Enter a journal name below to see if it uses Submission Method A.
