Parenteral nutrition (PN) is the feeding of specialist nutritional products to a person intravenously, bypassing the usual process of eating and digestion. The products are made by specialist pharmaceutical compounding companies and is considered to be the highest risk pharmaceutical preparation available as the products cannot undergo any form of terminal sterilization.

Appendectomy has been the standard treatment for acute appendicitis for over a century. More than 300 000 appendectomies are performed annually in the United States. 1 Although appendectomy is generally well tolerated, it is a major surgical intervention and can be associated with postoperative morbidity. 2,3 Since the time Fitz described the relationship between the appendix and pelvic ...

Poverty is the scarcity or the lack of a certain (variant) amount of material possessions or money. Poverty is a multifaceted concept, which may include social, economic, and political elements. Absolute poverty, extreme poverty, or destitution refers to the complete lack of the means necessary to meet basic personal needs such as food, clothing and shelter.
